

ESA Technology Transfer and Business Incubation Office certifies that

SkyfloX

was selected through a world wide open call to contribute to the innovation environment of the European Space Agency by participating in

IAC 2018 Start-up Zone powered by ESA space solutions

in Bremen, Germany
from the 1st – 5th October 2018.

SkyfloX successfully pitched at the ESA Booth by presenting their product to a wide range of delegates and has shown great enthusiasm and knowledge with the preparation and exhibition during the IAC 2018, where 6000 people attended.

We wish SkyfloX great success for the future!

Frank M. Salzgeber
Head of ESA Technology Transfer and Business Incubation Office
